WE CAN'T BE BEAT FOR WOOL & MEAT ON EVERY SHEEP

On Property Sale October 6th Contact David and Lynne McArdle 0498 632 042

65 High Quality, Dual Purpose Paddock Reared Rams Available on the Day

Taljar Polwarths Breeding Objectives Include:

To Breed a True All-rounder Sheep that produces wool and meat @ a 50:50 Ratio. These characteristics include:

- Long staple, white, high Yielding lustrous Crimpy Wool
- Soft Handling 20-23 Micron
- 5-6kg Wool Cut
- Fertile
- Docility
- Doing Ability from extra muscle and Fat Content
- Maternal Instincts
- Producing Prime Lambs Even as a Pure Blood
- Ability to Thrive in Cold Wet Conditions
- The rams had a very tough time over summer with the bushfires. In fact they are very lucky to be here today with the bushfire burning around them on the small patch they were sheltering on. This really tested their doing ability and we are happy to say they have come around the other side thriving. Microns are lower this year in correlation with the summer.

This Year's Rams are:

- The Rams are all June Drop
- May Machine Shorn
- May Micron Tested
- 6 month wool weight except 2 year olds which are 12 months.
- If any ram does not perform during his first joining, we will replace for free
- All Stock Scan Figures are from when the animal was 8 months old
- Drenched with Zolvix night before the sale

Our Rams bloodlines This Year Include

Green: Grandsons Taljar Tiny Tim 0161 This Ram was the biggest Polwarth Recorded at a whopping 150kg. He was a true all rounder with wool cut averaging 12kg. A hugely influential stud sire within our stud

Black: A Mount Crawford ram is the grandfather to these rams. Exceptional lock on this bloodline with good follicle density. Round as a wine barrel.

Purple: Rockthorpe A.I. stunning wool on a good boned square ram

Brown: 160 Browns background is a pure mount alma Polwarth ewe with Tiny Tim. Different bloodline ram who has taken on the growth rate of Tiny Tim. Doing ability is second to none, this summer the ram lambs had a rough time and all the browns were thriving.

Dark Blue: Taljar White 461 (one of our original families dating back to the 1970's) Very correct and safe ram with stunning frame muscling across the twist and carcass width.

Red: Taljar 258 Red He is mated with our specially selected studs each year. A Ram with a huge frame and length of carcass. His lambs are some of the most even and high growth on the property. Excellent tip on these sheep.

Lt Blue: Taljar 363. Our cover boy, he is the top ram on the front cover. Rated as one of our best rams we have ever bred. This ram is hard to fault, high growth, barrel, length of carcass, bone. High yielding white crimped wool who cuts 13kg each year. He really does have it all. Is a real game changer ram going on this progeny that are coming through!!

Orange: Taljar 388 Orange. Heavy wool cut, pure, great locked ram. This fella cut 11kg skirted of 23-micron wool and is a real game changer. He is the sire of 2018 and 2019 champion ewe at Bendigo Sheep and Wool Show

Yellow: Grandchildren of Rockthorpe A.I. Sire Taljar Orange 74 who would have to be one of our best muscled sheep we have bred! He was high growth as a young sheep with his progeny the same.

Royal Blue: Jared's Stud that derives from Rockthorpe semen.

White: Sire of the whites is Taljar Ray. This ram was Interbreed Long wool Champion at Adelaide Show 2017. Sired some of our stud's top sheep both rams and ewes. Will look at ET with some of the ewes from him in 2021.

Pink: Bel-antha Bloodline rams. Lyall Belantha's stud master has always been known as a top wool classer; and this shows through his bloodline. Impeccable wool on these sheep with excellent wool cutting traits.

Purple & Green Discs: New bloodline family whose wool is so bold you can feel the crimp!! Masculine rams with great early growth

TALJADE: 'Gorden' A Mnt Crawford ram over Taljar blood ewes. Very dense correct wools on these sheep. Very wide robust animals with muscle where you need. Excellent wool cutters

Our rams offered have been put through their paces with selection criteria including structural correctness, growth rates, wool cut, micron testing, stock scanning, and then finally when the animals pass all the tests they make it to our catalogue. They have performed well considering the very tough conditions over the dry summer and bushfires.

Junior Champion ram at Bendigo Sheep and Wool Show 2019 as feature breed. He was also part of the Progeny Group winners at the same show and stood out in the interbreed in the Pen of three rams 2019 Royal Adelaide Show. This ram is hard to fault, with soft, bright deep crimped wool with good nourishment, well boned and his best feature his backend with full roundness and a deep twist. Will be ideal to put muscle onto any sheep.
